You're welcome, Mark. I hope you and your family are doing well.

Take care,
Stepan

Subject: RE: Morning

Sure, Samantha.

It's a new passenger terminal expansion of the North Central West Virginia Airport, which is a small public/military airport in Bridgeport, WV. It also includes a future adjacent business park development. The project would be constructed in 2 phases. The first phase would include construction related to the terminal development (will take about 2.5 years to complete). The second phase would include demolishing 4 abandoned WV National Guard buildings to support an Aerotech business park (anticipated to take up to 20 years to reach full build out).

The Thrasher Group prepared the EA for the Benedum Airport Authority. Our 404 program previously commented on their clean water act permit. Christine Mazzarella passed along my contact information to them. Comments on the EA are due by 28 March. Joy is working on it.

I've attached the section of the EA that describes the proposed action and alternatives in case you want more details.

Stepan
